## Validating a Claim with MetaMask

We suggest using either (i) the MetaMask wallet with the Google Chrome Browser, or (ii) the MetaMask Mobile App.

- 1. Installing Metamask
  - a. Browse to https://chrome.google.com/webstore/category/extensions
  - b. Search for MetaMask

- c. Add to Chrome
- 2. Create Wallet
  - a. Create a new Metamask Wallet by choosing a password.
  - b. Make note of the backup keywords
- 3. Add your address to the wallet
  - a. Click on the Menu button and choose Import
  - b. Add your private key and choose Import

Ropsten Test Network
Create Import Hardware
Imported accounts will not be associated with your originally created MetaMask account seedphrase. Learn more about imported accounts <u>here</u>
Select Type Private Key 🗸 🗸
Paste your private key string here:
Cancel Import

4. Select the Ropsten Test Network from the top dropdown

- 5. Add Token
  - a. In order to see the control token, you must add the contract to Metamask
  - b. Scroll down to the bottom of your list of assets and click Add Token

c. Select the Custom Token tab
